

ENGINEERING DESIGN

PT. CENTRA REKAYASA ENVIRO

ENGINEERING SOLUTIONS FOR OUR ENVIRONMENT, INDUSTRY AND COMMUNITY

SERVICE

CR-Enviro can provide complete engineering and design services for all our engineered products, from concept through production, in a quick and efficient time frame. With our experience and knowledge across diverse industries, CR-Enviro has the ability to think outside the box and create innovative designs and solid engineering solutions.

Our Engineering division will provide our client with the most sophisticated resources for client's requirement. Which includes:

- Basic Concept and Business Plan (BP)
- Feasibility Study (FS)
- Site Plan (SP)
- Detailed Engineering Design (DED)
- Fabrication of Equipment
- Installation
- Operation and Maintenance
- Upgrade of Existing Equipment

Simply email us at engineering@cr-enviro.com for more information.
